

*"The premise of the RAWK Camps is to teach participants that there's more to music than the Top 40 we hear on the radio, and that music can be a whole lot of fun. We also provide them with skills that they can use down the road. Skill development is so important."*

-JODY PETERS, SPEED CONTROL BASSIST

*"Every high school student will forever remember the rock legends, Speed Control, as their favorite cultural assembly ever!"*

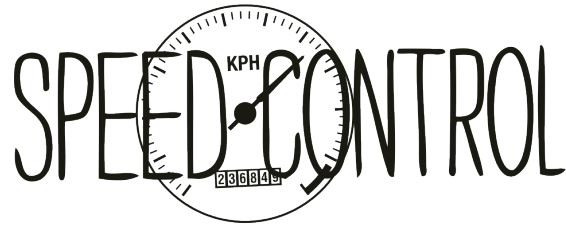

-STUDENT AT KELOWNA SECONDARY SCHOOL

*"Speed Control's RAWK Camp 2013 in Burns Lake is the most successful event for young people we have presented in our community."*

-JOHN & SANDRA BARTH, LAKE DISTRICT ARTS COUNCIL.

*"The participants and the parents were thrilled with the RAWK Camp, especially the Showcase at the end. Parents and participants alike were already asking when the camp will be next year so they can plan."*

-KIM MacDOUGALL, PROGRAM SUPERVISOR  
CITY OF TERRACE

**Powerful. Animated. RAWK!**

Sponsored by

*"We saw the connection they had with the kids and what they were able to accomplish with them in just one week, it was remarkable."*

-ROB BARG, SENIOR VP, YAMAHA CANADA MUSIC

# COURSE DESCRIPTIONS

## The RAWK Starts Here

**Skill level required:** No previous lessons required just a strong attitude.

The goal for these kids is to grab onto the love of music and learn how to have fun performing with other musicians. The camp for beginning rockers will include group lessons on individual instruments: guitars, drums, bass, keyboards, and vocals. They will be grouped into "rock bands" with the goal of having 1 - 3 songs performance ready for the showcase.

## RAWK on Stage

**Skill level required:** At least a year of lessons required.

Basically follow the same principle as the juniors but tackle more advanced songs and skills. Will explore principles of mic technique and learn how to play to an audience by drawing the audience in with awesome onstage presence. The goal is to have 3 songs performance ready for the showcase.

## RAWK Smarter, RAWK Harder!

**Skill level required:** 2-3 years of solid playing experience and lessons.

The focus of this camp will be to learn how to be a band, how to make the most of rehearsal time, and, on stage, how to engage with your band-mates to make a great show happen all the time. Learn arranging skills and performance skills to help make your set/sets more powerful and interactive. The material to be worked on will be more challenging at this level as well as more intense with the end result being a showcase at the end of the camp that will bring everyone to their feet!

## Release Your Inner Rocker

### Adult Rockers

Have you ever wanted to play in a rock band, relieve stress, embarrass your kids? Here's your chance to strap on a guitar or sit behind a drum kit and play the ultimate classic rock song. We'll help you rock out to your favourite tunes!

## Target Audience

- 8 years and up, individuals who have always wanted to play in a rock band
- existing rock bands interested in improving their on-stage performance skills
- adults in existing bands or anyone who would like to "release their inner rocker"

## Bring Your Band

### One on One Coaching

Geared for all ages (youth to adults) in existing bands. The approach here will focus on arranging your songs for live performance, which is different than arranging for recording, and developing performance skills that will help you create a show that's stronger with more BANG for your buck. We will work on songwriting and touch on the business of music such as developing online strategies that will help you reach and grow your fanbase. Bands will be part of the final showcase.

## Camp Outline

- Meet & Greet with Speed Control's *History of RAWK* 60-minute show
- 2-4 days of sessions
- Final public showcase of participants "(name of city) RAWKS!"
